Fresh from the Freezer

We encourage you to have a look at the AngusPure range featured on this page if you are looking to **differentiate** your menu and give it a New Zealand flavour in line with current global trends.

No **growth hormones**, guaranteed aged, and most important of all for tenderness – cold-boned. There is a 10 – 20% higher cost, but you definitely get what you pay for.

If you have this on your menu you can also be listed on the AngusPure.co.nz website.

Consumers are increasingly concerned about where their food comes from and what its “story” is and this product range will attract their interest.

Dairy product pricing (and garlic) looks like it will jump between now and mid August, so keep an eye on your costings.

Remember the old adage as well – the cheapest product might not be the **most profitable** if there is a yield factor involved.

Everyone is talking about....

The Northland Chefs Association Matariki Hospitality Awards were held June 27th.

We are proud to have been a finalist in the "Food and Beverage Supplier of the Year" category and congratulate Pernod Ricard on their win, and Omak Meats for being the third finalist.

We also congratulate Sean Peters on winning the *Penguin Wholesalers Maitre D of the year*, Parua Bay Tavern for winning the *Kingfisher Products Gastro Pub of the year*, *Nectar Café* for Café of the Year, Marsden Estate and all the other finalists and winners.

The awards were a very professional and enjoyable event and are an increasingly important part of Northland's hospitality scene.

Next year we will again be striving to win our category and are happy to assist any of our customers who have the same objective.

Expect to see: emphasis on "local."
